of Organization.

Fort Worth, Texas, June 25 .- George B. Loving, who is at the head of the deal having as its object the formation of a signntic cattle and ranch company in Texas, was seen tonight, and says the report sent out by the Associated Press. with an Austin date was exaggerated as to the intentions of the company and as to its immensity. The company will be an American organization composed of New York capitalists and not English men, as reported from Austin. The intention is to form a company with \$40,000,000 capital, \$25,000,000 or \$39,000,000 of which is to be used in the purchase of cattle and ranch property in this State, the balance of the capital stock to be used in operating the big concern. It is claimed the business can be more successfully conducted and at less expense under a single management. For the past two months parties representing Mr. Loving have taken options on cattle and ranches to the amount of \$20,000,000. These options expire July 1, but it is understood, if necessary, they can be renewed. No doubt is expressed that the big deal will be consummated, for the prices to be paid are fair.

Mr. Loving says there is no intention to form a cattle trust; merely an effort to conduct an extensive cattle business, the largest in the world. There Miss Pearl Dickson will give a recital and Athens, the country seat, is defined at the operation of the country seat, is defined at the operation of the country seat, is defined at the operation of the country seat, is defined at the operation of the case of the case of the country seat, is defined at the operation of the case of the case of the case of the case of the company is nothing less than an immense cattle transaction.
